

EPSILON ETA CHAPTER at
CENTRAL MICHIGAN UNIVERSITY

A KAPPA DELTA PI CHAPTER

2015 HIGHLIGHTED PROGRAM

Chapter Scrapbook Night

The Basics

The Epsilon Eta Chapter at Central Michigan hosts two scrapbook events annually to help record the history of the chapter for future members to see. The Chapter historian documents events throughout the year and the group creates a scrapbook to pass on to future members.

Getting Started

Every member is given more than one opportunity to create their own pages, so that all members have the opportunity to contribute to the chapter's historical record. The chapter sets aside money from fundraising specifically to help cover the supplies and snacks for members to eat while crafting. A member with off-campus housing provided a cozy space for members to gather.

The Experience

More than half of the membership of the chapter attends each semester to craft a page of the book. Each page has a theme, ranging from socials for the family-feeling of the chapter. The laid-back event provides stress relief and bonding for the chapter members.

The Impact

Participants enjoyed a break from the stress of the end of the semester to create the record. Members are able to look into the past through old scrapbooks and spend time together before either winter or summer break.

Watching how members and events grow and change over the years is an added benefit!

Keep a beautiful record of your chapter's well-planned activities for future members to gain inspiration and from which to learn.

Make This Event Your Own

- Focus on a specific event and make one scrapbook for it
- Have everyone bring in their own photos and selfies from events
- Have everyone create their own page to take home
- Use the scrapbook as a gift for officers or Chapter Counselors

events

"This event is such a fun way to bring everyone together in a laid back setting while looking back at all the memories that we made throughout the semester. It is also fun to look back at old scrapbooks that have been made over the many past semesters to see how much our chapter has done and has also evolved."

- Tau Phi Chapter Member
